

Perception SaaS On-premise Prices

PERCEPTION TVCDN™ UNIFIED OTT/IPTV/CDN STREAMING PLATFORM was first to market introducing an all-in streaming service at the best industry price and with a friendly low risk price model:

\$60,000 one-off setup fee*

For basic out of the box fully configured white label on-premise installed SaaS custom branded platform including OSS/BSS integration.

Additional apps, including app store publishing, and including perpetual free of charge updates for the duration of the service lifetime, are charged as one-off setup fee of:

\$5,000 per extra app

11 apps are available for all popular mobile and smart TV ecosystems including the custom set-top-box apps: Web browser, Android and iOS mobile with Chromecast support, Android TV, Fire TV, Apple TV, LG TV webOS, Samsung TV Tizen, Hisense VIDAA Smart OS, STB Android and Linux custom OS.

For SaaS-based business models, we provide the complete solution on a revenue-share basis:

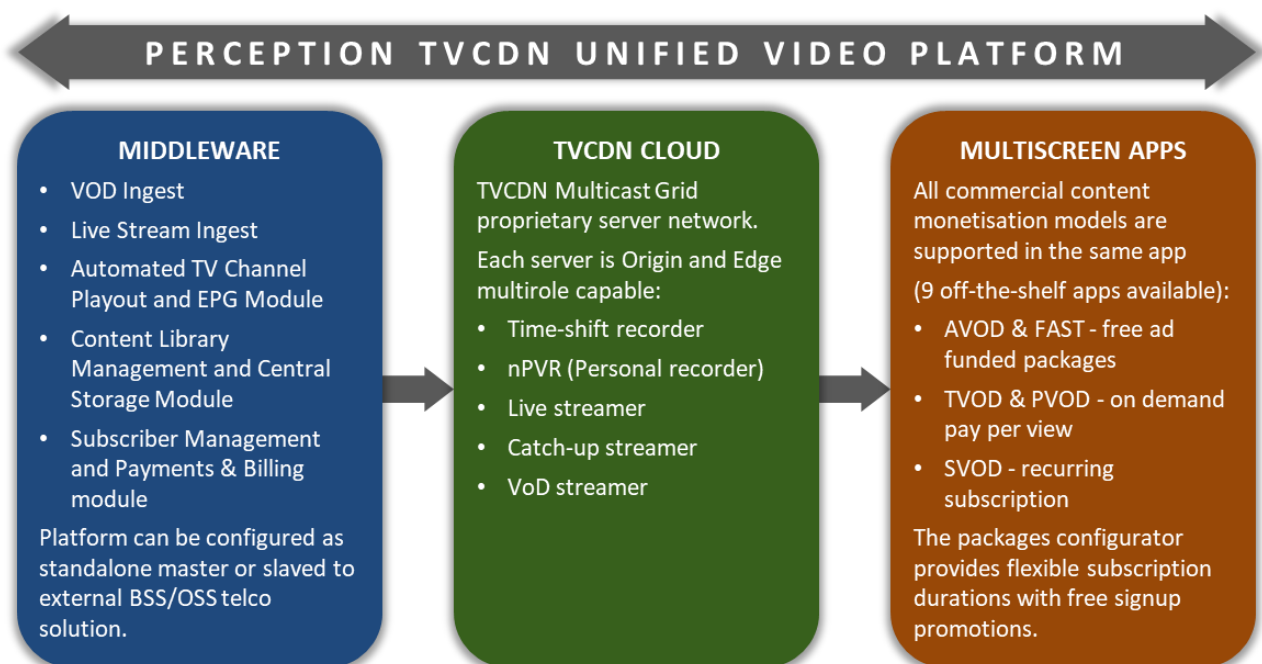

8% revenue share

Charged monthly based on recoupable **\$5,000** minimum fee.

This includes all-in software platform modules including **TV channel payout, CDN server licences, OSS/BSS integration, plus NO-LIMITS middleware and user apps global licences.**

On request, the revenue share fee can be replaced with fixed fee based on 'per user' or 'per TB of CDN transit'.

All in turn-key price includes complete end-to-end SaaS solution:

Please contact sales@perception.tv to get your service live rapidly at risk free cost!

**Depending on specific customisation requirements setup price may vary, however Perception is committed to beat any price on like-per-like comparison basis!*
